

There are two main reasons why I am supporting John Crooks for the Post 6 school board. First, not one single current member of the school board presently has a child in the public schools of Cobb County. Not one. John does. John is a stakeholder and has a personal interest in working hard to reach the best decisions. The second reason is that John is a leader and consensus builder. John will not only be attentive to the PTAs, he will also reach out to the community and take advantage of their collective IQ. He will not be divisive as our current board member. He will be inclusive and do his best to represent the people in his district. He understands accountability. I say this confidently after knowing him for 15 months and working with him almost daily. He is the right choice for change and progress.
